nececity.com (lcost systems)

Project Leader

November 1999 - January 2001 (1 year 3 months)

Singapore

- This is a virtual shopping world on the web, where people can log on and buy things online. I was the project manager and 3D animator for

this project. We built cities, which are major shopping belts around the world, like Singapore, Beijing, Shanghai, New York and Hong Kong. I created part of the models for Singapore, and for the rest of the cities, I was in charge of the creative work.

www.pa2000.gov.sg (www.pa.gov.sg)

- This is a project done for People's Association, which is a part of the Singapore government. As a project leader I was dealing with the client and their requirements. I had to come with screen design and the overall flow of the website.

www.keedz.com

- Development of a web site for children where education is promoted through story books and magazines. As a Project Leader I was in charge of dealing with the client and meeting their requirement of web development and creative direction.

iT21.com.sg

[Producer / 3D Animator](#)

December 1996 - October 1999 (2 years 11 months)

- Had to manage a team of 12 in doing a 3D walk through of Orchard road. The project was done for Nececity. The project was based on e-commerce where user can go real time and shop on the web. Models had to be build with low polygon count and had to work with KRDL for the integration of the model as KRDL was doing the programming for it.
- Worked closely with the Ministry of Education and the LIUP (Local Industry Upgrading Program) on educational courseware. Job involved co-ordination, screen design and 3D animation.
- I have developed more than 20 educational CD-Rom. We worked closely with the teachers and schools in creating educational material for the Primary 4, 5 & 6. My work included 3D Animation and overall Concept Design and co- ordination of the CD-Rom. IT21 is one of the top IT education providers in Singapore.
